UVOD

1. Korišćeni programski jezici

Korišćeni jezici u toku izrade sajta: **HTML, CSS(SASS), JavaScript, jQuery, XML**

Osnova sajta je teško bazirana na preuzet template ali je sav kod i text koji se nalazi na sajtu lično napisan.
Link ka templejtu: https://www.free-css.com/free-css-templates/page264/host-cloud

Radno okruženje: **Visual Studio Code, Photoshop CS6**

Korišćen je „**Slick**" plugin za jQuery.

2. Funkcionalnosti

Zajedničke **funkcionalnosti** za sve stranice:

1. **Dinamički ispis navigacionih linkova**
2. **Dinamički ispis ikonica i sličica**
3. **Dinamički ispis ponavljajućeg sadržaja**
4. **Promena boje navigacije nakon određenog skrola**
5. **Provera putanje otvorene stranice radi ispisivanja posebnog koda**
6. **Responsive hamburger meni**

Stefan Jović - 20.12.2022.

> index.html

Pretraga domena.

Provera unetog domenskog imena.

Primeri domenskih imena sa slučajnim odabirom.

Slick panorama poznatih kompanija koje koriste usluge sajta.

Dinamički ispis elemenata poput navigacije, izdvojenih servisa, hosting planova, cloud karakteristika i recenzije korisnika.

Slajder recenzija korisnika.

> about.html

Panorama slika sa fade efektom.

Interaktivno zaglavlje tema o istoriji i tehnologijama kompanije.

Promenljiv tekst o određenoj temi koji zavisi od izabranog zaglavlja.

Slajder značajnih radnika.

> services.html

Dinamički ispis svih servisa koje kompanija pruža.

> contact.html

**Dinamički ispis** ikonica i dostupnih vida kontakta.

Provera tačnosti forme sa ispisom i uokviravanjem grešaka.

> author.html

Interaktivno dugme za preuzimanje dokumentacije.

Stefan Jović - 20.12.2022.

3. Template

Template sajta delim na dva dela zbog toga što je indeks stranica jedinstvena ali opet sadrži 2 template elementa, svoju **navigaciju** i **footer**, dok druge stranice pored nava i footera imaju **banner** na vrhu koji takođe spada u template.
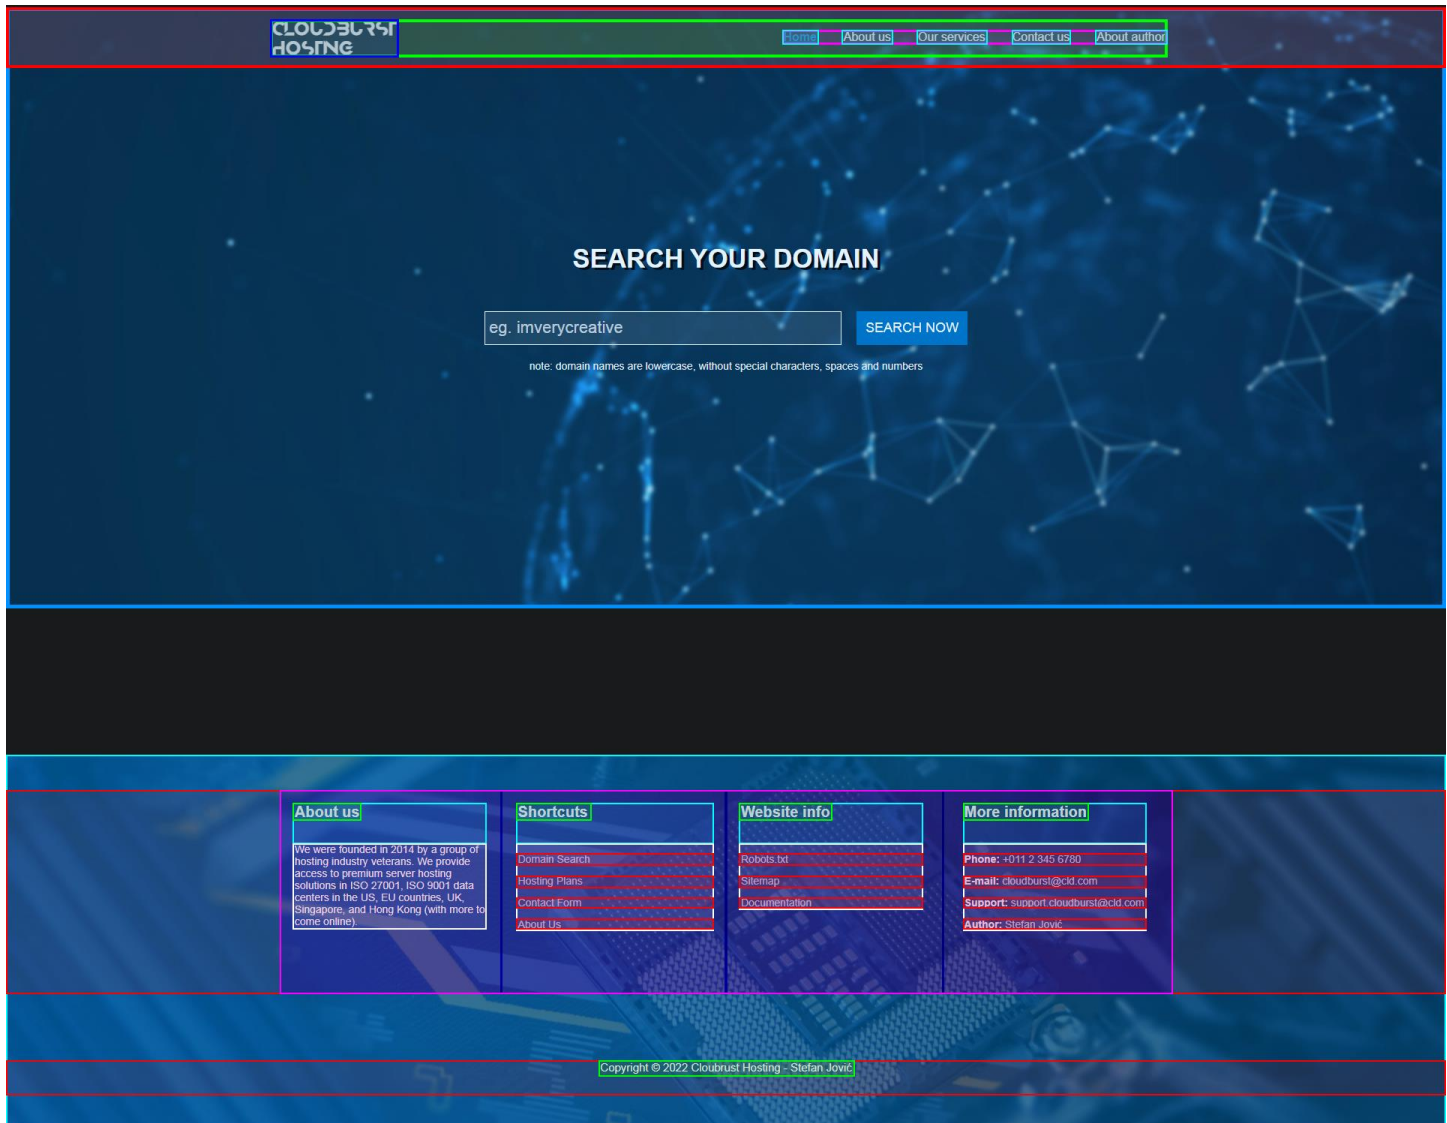

Slika iznad sadrži uokvirene divove i elemente od kojih se sastoji **glavni banner**, **navigacija** i **footer**.

Stefan Jović - 20.12.2022.

Slika iznad sadrži uokvirene divove i elemente od kojih se sastoji **template banner** ostalih stranica.

> Kod navigacije:

```html
<header>
    <div id="normalNavigation">
        <div id="logo"><a href="index.html"><h1>CLOUDBURST HOSTING</h1></a></div>
        <nav id="normalNavTag"></nav>
    </div>
    <div id="mobileNavigation">
        <div id="logoMobile"><a href="index.html"><h1>CLOUDBURST HOSTING</h1></a></div>
        <div id="hamburgerButton">
            <i class="las la-bars"></i>
        </div>
        <div id="hamburgerMenu" style="display: none;">
            <nav id="mobileNavTag"></nav>
        </div>
    </div>
</header>
```
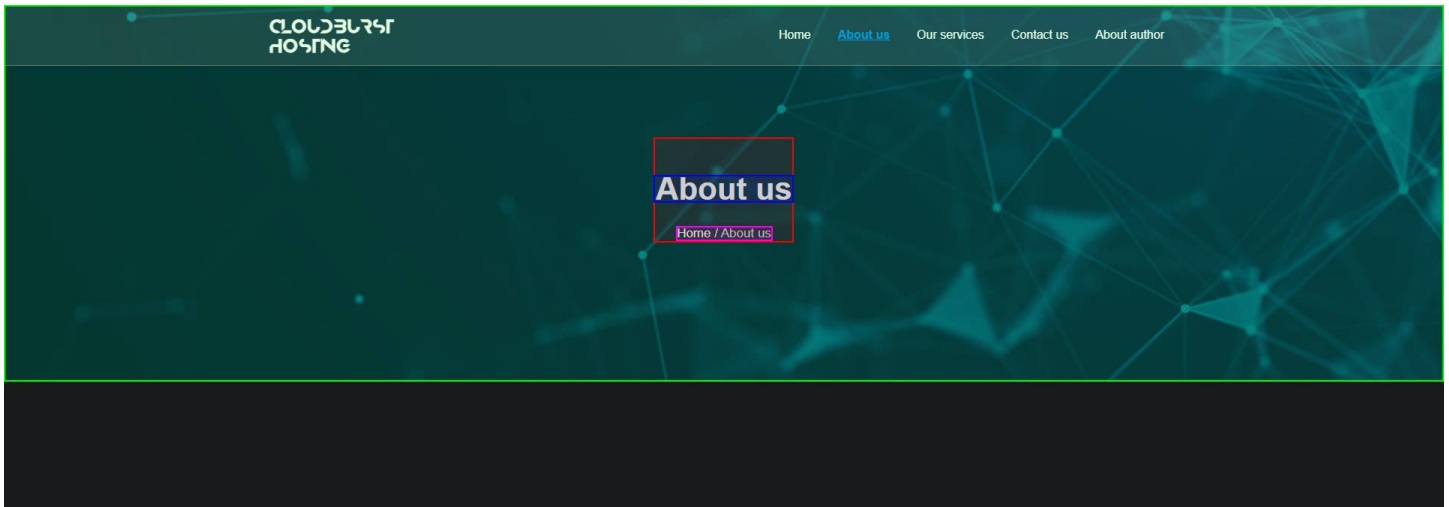

ID #mobileNavigation se aktivira samo na rezolucijama manjim od 768 piksela, uključujući i 768. U tom slučaju se ID #normalNavigation sakrije kodom u css-u.

Ostatak elemenata se dinamički ispišu korišćenjem javascript-a.

Stefan Jović - 20.12.2022.

> Kod footera:

```html
<footer>
    <div id="footerBlock">
        <div class="footerInfoBlock">

> Kod bannera:

```html
<section id="genericBannerContainer">
        <div id="genericBannerTitle">
            <h1>About us</h1>
            <p>Home / <a href="#">About us</a></p>
        </div>
</section>
```
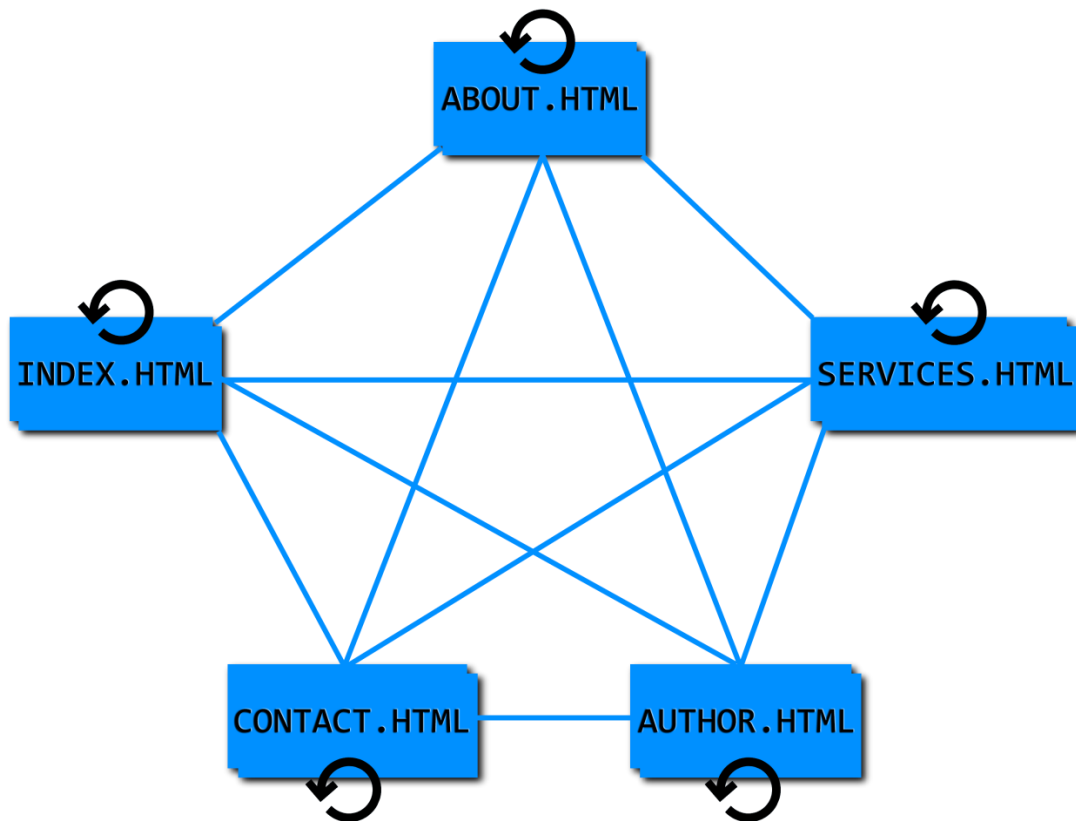

Banner je veoma jednostavan i nema dinamičko ispisivanje sadržaja.

3. Slike tranica i opisi funkcionalnosti

> Pretraga domena

Pretraga domena, koji su u kodu zapravo niz objekata, radi na principu poređenja unetog stringa u input polje sa imenima domena, zatim se oduzme substringom po

jedno slovo sa kraja unete reči i ponovo poredi sa objektima na kojima sličnost nije nađena u nadi da ako naiđe na barem jedno slovo koje se poklapa, da prikaže taj objekat kao rezultat pretrage.
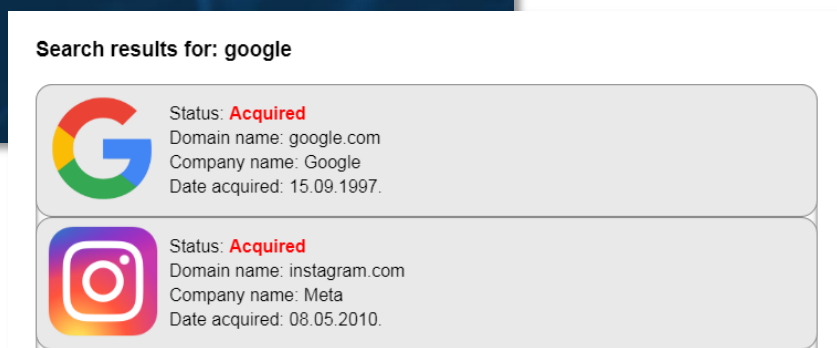

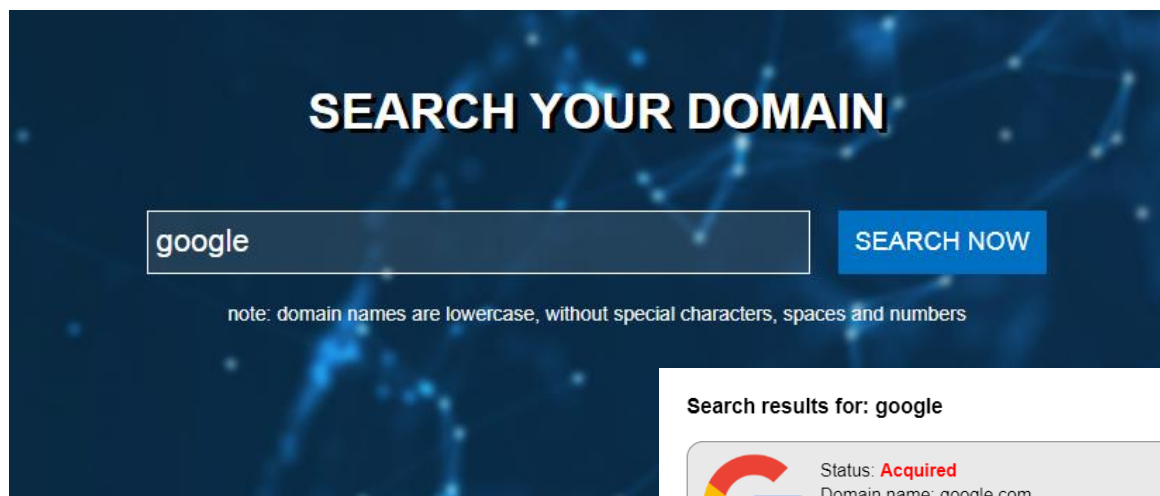

> Provera unetog domenskog imena

Ukoliko klijent unese pogrešan format pretrage (prazno polje ili velika slova, specijalni karakteri i razmaci), input se zacrveni i zameni uneti string sa porukom „Invalid name format". Da bi korisnik uspešno pokrenuo pretragu, mora da zadovolji regularni izraz /^([a-z]{3,36})$/.

Stefan Jović - 20.12.2022.
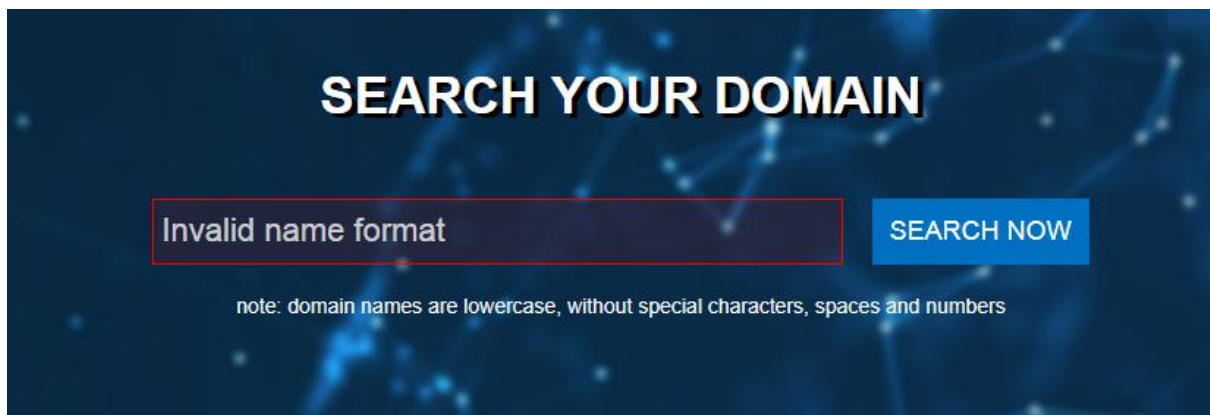

> Primeri domenskih imena sa slučajnim odabirom

Niz mogućih vrednosti placeholder-a:

```
const randomPlaceholders = [
        "mycoolwebsite", "imverycreative", "bookoffaces", "wewillrockyou", "wingsoffreedom",
"spaceiscool", "pineapplepizza", "staggeringbeauty"
    ];
```

Na svakih 8 sekundi će placeholder dobiti novu vrednost da bi korisnik video što više primera. Za samu promenu se priziva funkcija:

```
function placeholderGenerator(){
        return randomPlaceholders[(Math.floor(Math.random()*randomPlaceholders.length))];
    }
```

> Slick panorama

Slick panorama slika napravljena koristeći jQuery plugin „Slick". Sama panorama se zapravo aktivira tek na manjim rezolucijama ekrana (1024px na dalje). Panorama je responsive i ima tačkice koje se mogu koristiti za navigaciju ili prosto pomerati slajder svajpom na levu ili desnu stranu.

Stefan Jović - 20.12.2022.

> Dinamički ispis elemenata

Dinamički se ispisuju razni elementi HTML-a koristeći for petlje. Postoje više funkcija koje takođe menjaju HTML kod nekom interakcijom, poput pritiska na dugme.

> Slajder

 Slajder sa recenzijama klijenata. Navigacija slajdera se vrši pomoću dugmića sa nacrtanim strelicama na bokovima kartica.
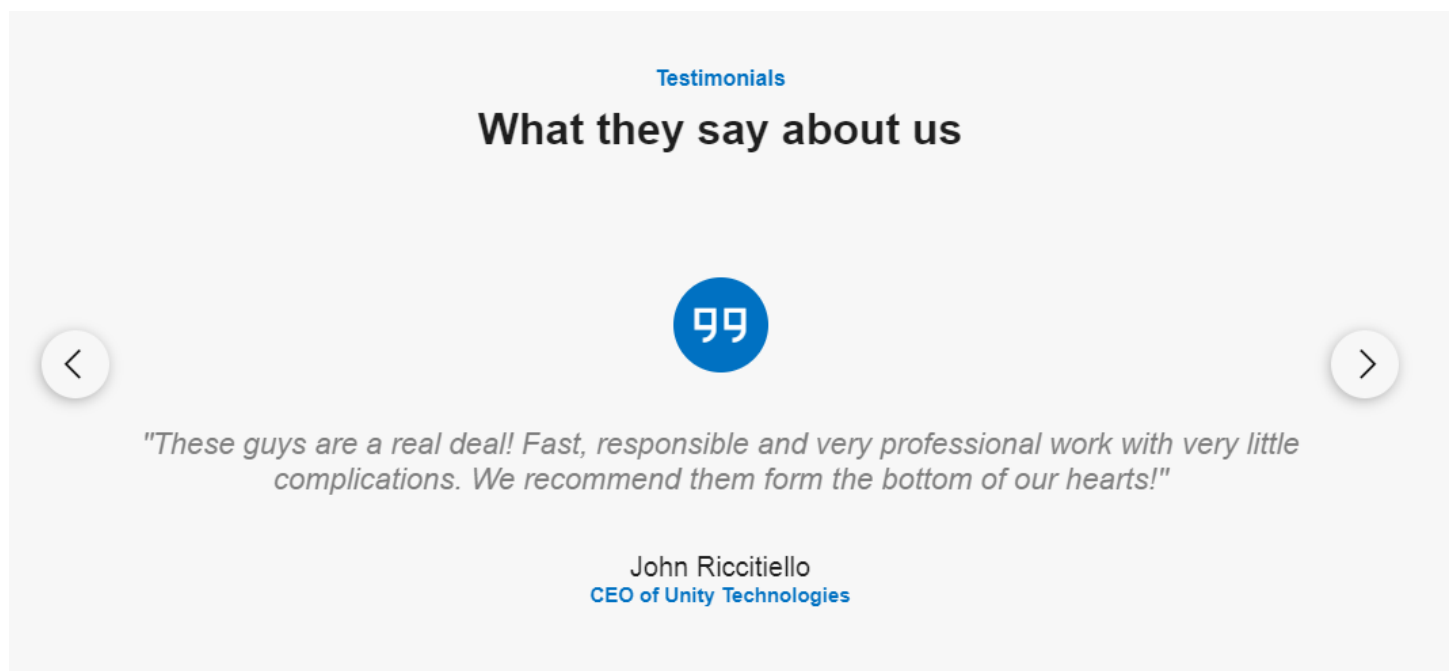

> Panorama slika

Prosta panorama slika sa fade in/fade out efektom. Promena se vrši tako što se dva img elementa smenjuju i dok je jedan sakriven, isti menja sliku dok se ponovo ne pojavi na ekranu.

Nestajanjem slike iznad se prikazuje slika ispod.

Stefan Jović - 20.12.2022.

> Interaktivno zaglavlje tema

Klikom na jedne od tri ponuđene teme se generiše **promenljivi tekst** u okviru ispod elementa.

Stefan Jović - 20.12.2022.

> Slajder značajnih radnika

Sličan prošlom slajderu, i ovaj koristi dugmiće na bokovima da bi se pomerali kroz slajder. Za razliku od prošlog, stilizovanje i prikaz je skroz drugačiji.

Stefan Jović - 20.12.2022.

> Provera tačnosti forme

Your first and last name:

John Doe

Provera forme se vrši preko skupa funkcija koji prolaze kroz svaki element forme nakon pritiska na dugme submit. U slučaju da korisnik loše popuni polje (proverava se regex, for of ili if), okvir polja se zacrveni i prikaže se <span> tag ispod elementa forme gde je ispisana greška.

Your first and last name:

John DoeE

Name is not written in a right format. Please try again.

Nakon ispravke greške, polja i crvenilo nestaju. U slučaju da su sva polja pravilno popunjena, prikazuje se poruka o uspešno poslatoj formi.

Form is submited successfuly! We'll get in touch with you asap.

Stefan Jović - 20.12.2022.

> Interaktivno dugme

Na par mesta se umesto pseudo-klase :hover u CSS-u koristio event listener u javascriptu koji je osluškivao mouseover događaj nad dugmićima. Kada event listener prepozna mouseover, dugmetu se doda određena klasa za stilizovanje i time se postiže isti efekat poput pseudo-klase :hover.

                                Hi! My name is Stefan Jović and I'm responsible for this mess
of a website.
                                As of writting this, I'm 20 years old and I'm a proud student
of
                                ICT Academy. I'm also in love with technology and video-games
so, naturaly,
                                I also enjoy making games and studying new technologies!
                            </p>
                            </br>
